

Rules for senior ladder

At the end of each session players are asked to total their scores.

The following rules will be applied for fully played up groups:

- The top 2 players will move up one division
- The 2 players with the lowest scores will move down one division
- The remaining player(s) will stay in the same division

If a group is not fully played up the following rules will be applied:

- A player who fails to make themselves available for all games may be moved down by more than one division.
- Their scores will usually be discounted in the totalling of scores before the two up/two down rule can be applied.
 - If a player fails to play any games they will automatically be removed from the ladder unless they contact the office to offer an explanation.

Insertion into ladder mid season:

- Players are asked to specify a grade A,B,C, or D when entering their name on the list for inclusion. Where possible we will endeavor to insert players in an appropriate division to their grade.
- To accommodate mid season insertions it may be necessary to create an additional division(s). In such cases players may be moved up or down a group as required.
